

*“Teo Glowing BabySpa expands the meaning of longevity - not just by addressing the signs of aging, but by creating emotional wellness, comfort, and connection from the very start of life. I believe longevity is not only about adding years to life, but adding life, love, and care to every year - beginning from birth.”*

TEO GLOWING BABYSPA

## *Personal Note to the Judges*

Thank you for considering Teo Glowing BabySpa. This is more than a product - it's a mission from my heart, crafted out of personal experience and deep passion for making life better for babies and parents everywhere. I want you to know that the physical bath you will receive was handmade by me at home, without outside funding, as I do not yet have the resources for a commercial prototype. However, the photos and designs included here show the final vision we are working toward. I am deeply grateful for this opportunity and your support of grassroots innovation.

## *Innovation Highlights & Benefits*

- Patent-pending sensory design
- Designed by a mother, from real-life needs
- Affordable and scalable globally
- Therapeutic and wellness applications
- Roadmap includes AI and health tracking
- Adaptable to homes, hospitals, and travel

*“We invite healthcare partners, retailers, and investors to join us in shaping the future of family wellness.”*

## *Founder's Story*

Created by a mother of five, Teo Glowing was born from real-life need and passion to improve early care.

Like many parents, I searched for a better way to soothe, comfort, and bond with my baby during bath time. From those moments came a big dream: to create the world's first sensory baby bathtub, designed not just for function but for emotional connection, wellness, and care.

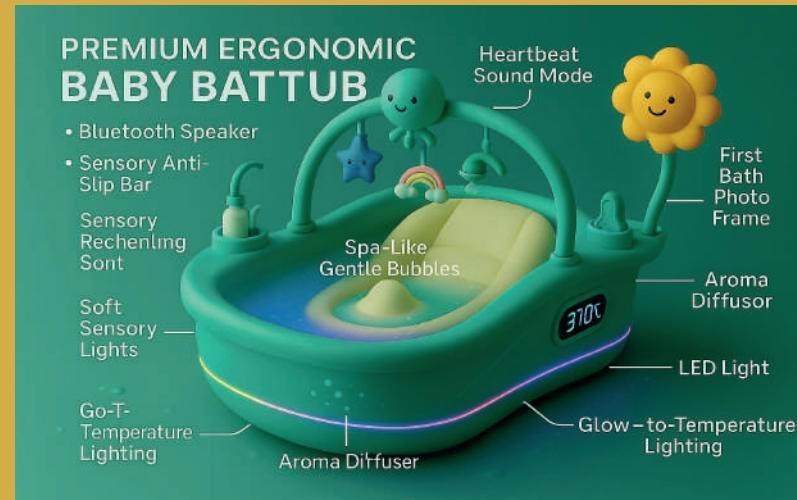

Without major funding or a development team, I poured my passion and determination into creating this - from sketches to mockups and finally, to a handmade demo bath built at home. Teo Glowing BabySpa is a finalist/applicant in international innovation and baby care awards.

*“Teo Glowing is more than a product - it's a movement to redefine how we care for the most vulnerable, from the very first bath and beyond.”*

## *The Teo Glowing BabySpa Concept*

Teo Glowing BabySpa is a patent-pending, first-of-its-kind sensory bathtub for babies. It combines gentle LED lighting, soft sound, calming vibrations, spa-like bubbles, and aromatherapy to transform baby bathing into a multi-sensory wellness experience. It is designed to comfort babies, support parents, and provide therapeutic benefits, including for premature babies or those with special needs. Bluetooth connectivity allows for music or heartbeat sounds, while glow to temperature indicators add both beauty and safety.

*Product mock ups and final design images are included in this booklet to show the intended look and feel.*

## *Future Ecosystem Vision*

*“We are building an ecosystem that re-defines care and comfort for every life stage”*

**Teo Glowing is not just a baby bath** it's the beginning of a wellness journey from birth to old age.

**Our vision expands to include:**

- Neonatal and therapeutic hospital care systems
- Home - integrated wellness bathing for children and adults
- Elderly care solutions for comfort and sensory therapy
- Wellness travel products for families and caregivers
- AI and biometric integrations to personalize wellness care
- Eco-conscious and sustainable
