FLOWTOX® COSMETICS - INNOVATION MADE IN GERMANY

FLOWTOX® Cosmetics - „time is relative.“

BASED ON A UNIQUE COMBINATION OF COMPOUNDS AND INSPIRING TO SET A HIGH STANDARD IN QUALITY, SAFETY AND EFFICIENCY THE FLOWTOX® COSMETICS BRAND SEES ITS PURPOSE IN PROVIDING A HIGH QUALITY, INJECTION-FREE ALTERNATIVE TO COMMON ANTI-AGING PRODUCTS.

Adequate nutrition and a healthy lifestyle alone cannot protect skin from the natural aging process. The vulnerable facial skin in particular is prone to creasing and wrinkling.

As a result of extensive research conducted in only most reputable German laboratories, **FLOWTOX® COSMETICS** is a highly effective and innovative composition of unique ingredients. By sealing the skin from negative influences and providing a moisturizing effect, **FLOWTOX®** is essential for maintaining a youthful appearance.

Through the revolutionary combinations of highly effective, pure and optimal quality agents from the sectors of medicine and cosmetics, **FLOWTOX® COSMETICS** slows down the natural aging process and visibly improves skin cell structure. Undesired expressions on lines, mimic creases, preorbital dark circles, impure or dry skin as well as larger pores vanish.

Try **DAILY FLOW AGENT** and the new **FLOWCREME 24/7** indulge yourself in the unique **FLOW ELITE ELIXIR**.

Increase your claim to your charm and pamper "YOU", yourself!

Stay beautiful. Your **FLOWTOX® COSMETICS** - Team.

FLOWTOX® COSMETICS - PURE EFFICIENCY

FLOWTOX®
C O S M E T I C S

HIGHLY EFFECTIVE INGREDIENTS

FLOWTOX® COSMETICS USE ONLY PURE AND HIGH QUALITY INGREDIENTS FOR SUSTAINABLE WRINKLE REDUCING. ALL FLOWTOX® COSMETICS PRODUCTS ARE FREE OF PARABEN!
FLOWTOX® COSMETICS PRODUCTS DO NOT CONTAIN ANY HARMFUL SUBSTANCES.

ARGIRELINE

Is a synthetic Hexapeptide, that inhibits the release of neurotransmitters (e.g. Acetylcholin) and reduces facial muscular contraction and has a smoothing effect on deep wrinkles, finer creases and grants relaxation to the skin. Argireline is one of the most cost expensive products in cosmetics and is often referred as „natural botox*“ by insiders.

SNAP-8 NEW DEVELOPMENT

Is a newly developed octapeptid, that has recently gained reputation in the field of cosmetics for its staggering results. As an extension of Argireline SNAP-8 is another revolutionary agent from the Botulinumtoxin inspired peptid-family. SNAP-8 noticeably reduces facial muscular contraction and has a smoothing effect on deep wrinkles, finer creases and grants relaxation to the skin. Especially suitable for your upper facial area. Until today SNAP-8 is the safest and most effective alternative to Botulinumtoxin injections and therefore the most cost expensive agent in non-invasive anti-agent technology.

HYALURONIC ACID

Is a biochemically engineered substance. HYALURONIC ACID eliminates fine creases and smoothes wrinkles by increasing skin moisture levels.

The skin is lifted and appears elastic and crisp. HYALURONIC ACID is an important substance in the human body and is wonderfully effective in the right quality and dosage.

SHORT CHAIN HYALURONIC ACID

molecular mass: 1,5 to 1,8 million dalton

- smooth silky feel
- elastic film on the outer skin
- raises the moisture level in the upper Epidermis

LONG CHAIN HYALURONIC ACID

molecular mass: 0,25 - 0,45 million dalton

- strengthens corneocyte structure (improved skin protection)
- raises the moisture level in the lower Epidermis
- opens up the lacunar system (fluidity canals)
- optimised absorption of other agents (e.g. stemcell extracts and Ectoin)

* Botox is a registered Trademark of Allergan Group

+ EFFICIENT

FLOWTOX® COSMETICS - ACTIVE PROTECTION

DAILY FLOW AGENT

DAILY FLOW AGENT offers a visible instant solution for undesired expression lines and wrinkles caused by dryness. High quality, pure short and long chain Hyaluronic acid provides sufficient moisture and a beneficial effect on skin cell regeneration. As the second active agent Hexapeptid Argireline is used. This highly active peptide reduces facial muscle contraction and works in a relaxing and smoothing manner.

APPLICATION: Apply directly onto mimic creases, forehead, eye area and upper lip and after smoothly massage into the skin. Used on daily basis, every morning and evening.

FLOWCREME 24/7

FLOWCREME 24/7 protects the skin from free radicals as well as cellular damage. In Addition a smoothing effect on the skin structure is achieved. Containing high doses of rich agents. (Hyaluronic acid, Phytosteroids, Ceramides, Vitamins, Algae- and Aloe Vera-extracts, Sheabutter, Macadamia Oil, Isoflavone, Phytosphingosines, Squalan, Cholesterol and Saccharid compounds). FLOWCREME 24/7 works as a compliment to the results of DAILY FLOW AGENT.

APPLICATION: Apply generously to your facial area. Used on daily basis, every morning and evening.

PROFESSIONAL ELITE FLOW ELIXIR

ELITE FLOW ELIXIR combines the most cost expensive and efficient agents (Hyaluronic acid short and long chain, SNAP-8 and Argireline) in cosmetics and therefore one of the most concentrated anti-aging products on the market. ELITE FLOW ELIXIR reduces muscle contraction in an unprecedented way and offers incredible results.

APPLICATION: Apply directly onto mimic creases, forehead, eye area and upper lip and after smoothly massage into the skin. Used directly after grooming, once or twice a week.

ALL FLOWTOX® COSMETICS PRODUCTS ARE FREE OF PARABEN!

= PERFECT RESULT

FLOWTOX® COSMETICS - IMMEDIATE EFFECT

FLOWTOX®
COSMETICS

DAILY FLOW AGENT

RESULTS: Reduces undesired expression lines and wrinkles caused by dryness, makes preorbital dark circles vanish, reduces larger pores, seals the skin and supplies necessary elasticity, alleviates bad skin and serves as an ideal foundation for make up.
